Brief

Cardiff University took over the 11th, 12th and 13th floor of Eastgate House and required us to provide desking, meeting tables, pedestals and screens into the 3000 sq. ft. space.

Solution and Outcome

We supplied a combination of Soho2 bench desking and radial desks for the space, together with Vega meeting tables for their breakout areas. The screens were produced in a bright red fabric to complement the design scheme and additional furniture that was being used.
